

The Ellison Foundation invests in highly effective, regional nonprofit organizations and institutions involved in medicine, education, and human services.

### **Our Mission**

The Ellison Foundation's mission is to support nonprofit organizations who create sustainable benefits for the people they serve. We invest in innovative medical research, educational initiatives impacting lifelong achievement, and organizations addressing the needs of our most vulnerable families locally.

### **Our Vision**

We are committed to improving the lives of others with a specific focus on the needs of women and children. Our hope is to create a framework for strategic, active, and thoughtful giving for future generations.

Our Grants: [Our Grants | Ellison Foundation \(ellison-foundation.org\)](https://www.ellison-foundation.org/grants)

The Ellison Foundation's mission is to support nonprofit organizations that create sustainable benefits for the people they serve. If the work of your 501 (c) 3 organization aligns with the foundation's priorities we encourage you to submit a **one-page** proposal (via email attachment) for review.

### **Your one-page proposal should contain the following:**

- Your organization's name and contact information
- A brief overview of what your organization does
- A requested grant amount and how it would be used

There are no deadlines for submitting proposals. Proposals will be reviewed throughout the year and if there's interest from the foundation you will be contacted. **Like most foundations, we're not able to pursue all requests due to funding limitations.** However, we value and appreciate learning about your organization and your needs.
